Purpose and Legal Basis for Processing Information in this Service

The lawful basis for processing your information as set out in Article 6 of the UK GDPR is: Article 6 (1) (e) Public Task - the processing is necessary to perform a task in the public interest and has a clear basis in law.

The GMCA is undertaking a public consultation on the Places for Everyone plan on behalf of and in collaboration with the nine districts and will need to collect and store the information about the people responding to the consultation so their comments are attributable and verifiable. It is a Planning Authority's legal requirement specifically prescribed in article 15 of the Development Management Procedure Order that we keep you informed of the progress of the consultation and tell you about any further related consultations that you may be interested in. In order to do this we will collect your name, full postal address, email address, telephone number and if appropriate, the name and address of the organisation you are representing. Your contribution to the consultation and your name will be made public but any personal or identifying information will be removed.

GMCA must comply with the General Data Protection Regulations (GDPR) and the Data Protection Act 2018.

At the end of the consultation period, your responses will be published in full by the GMCA, including on our website. To ensure an open and fair examination, it is important that the Planning Inspector and all other participants in the examination process know who has made the representations on the plan and the content of those representations.
